

## NVOAD Members

January 26, 2010

The **International Critical Incident Stress Foundation, Inc. (ICISF, Inc.)**, as an NVOAD member organization, would like to offer your agencies and workers stress management support, information and consultation as the Haiti Earthquake mission continues, and as your staff return from their service. We have found that post deployment support can help ease the transitional stress that can go along with disaster deployment and enhance the resilience of individuals and organizations. Please feel free to call the ICISF office at **410-750-9600** and ask for the on call **Haitian Disaster Coordinator**, or e-mail

[postdeploymentsupport@icisf.org](mailto:postdeploymentsupport@icisf.org)

or, if urgent page **1-800 250-8174**, so we can be of any assistance to your agencies. Our network of crisis support teams may be able to provide education, crisis support and consultation. We can also offer educational materials for workers and their families.

ICISF respects and appreciates the efforts of all those who have participated in this response.

ICISF stands ready to assist those NVOAD Partners who have in turn given so much to help those in need within Haiti.

***ICISF, helping those, who have unselfishly helped others.***

Warmest regards,

Don
