LAW ENFORCEMENT PERSPECTIVES FOR CISM ENHANCEMENT

Crisis intervention is not psychotherapy, rather it is a specialized acute emergency mental health intervention which requires specialized training. As physical first aid is to surgery, crisis intervention is to psychotherapy. Thus, crisis intervention is sometimes called “emotional first aid”. Most crisis intervention is done individually (one-on-one). The program is designed to teach participants the fundamentals of, and a specific protocol for, individual crisis intervention and increase emergency mental health skills.

Interested participants would include emergency services personnel, military personnel, business/industrial personnel without formal training in mental health, and mental health professionals. Successful completion of the Approved Instructor Candidate Program will allow you to teach this curriculum to others. Continuing education will be required to maintain your instructor status.
